

Radule e denti:
Immagini

Per la particolare formula divulgativa di questo lavoro non è stato possibile riportare le radule di tutti i gasteropodi.

Abbiamo ritenuto fare una selezione di quelle più interessanti e di facile reperimento per dimostrare la diversità delle forme a volte anche nelle stesse specie.

Abbiamo aggiunto a fianco, ove è stato possibile, l'immagine della conchiglia.

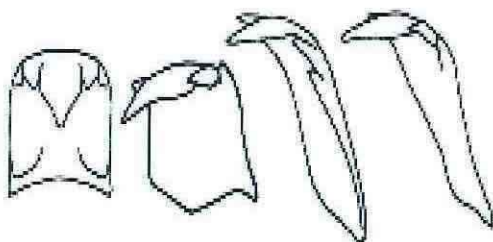

Una radula al microscopio

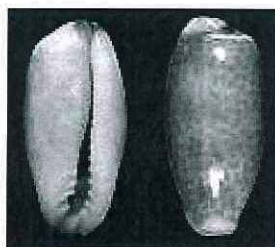

Denti di *Purpuradusta oryzaeformis* (mezza fila)

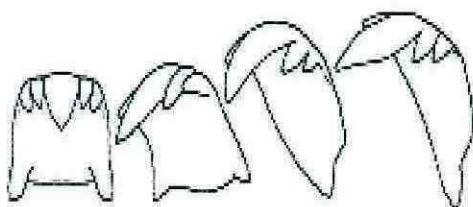

Purpuradusta oryzaeformis

Denti di *Purpuradusta serrulifera* (mezza fila)

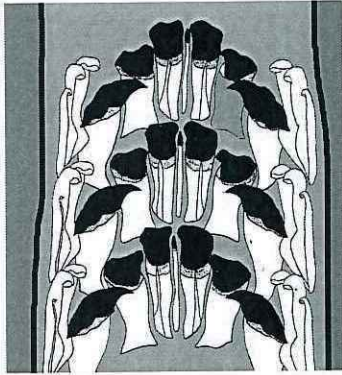

Purpuradusta serrulifera

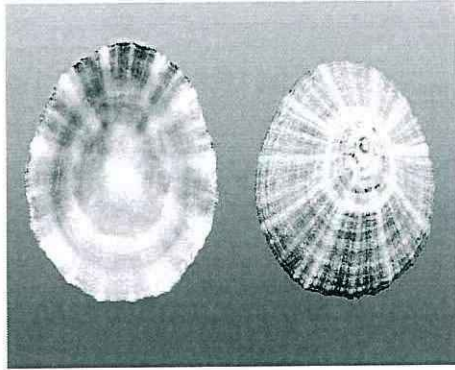

Denti di *Purpuradusta minoridens* (mezza fila)

Purpuradusta minoridens

Radula di *Patella plumbea*

Patella cerulea

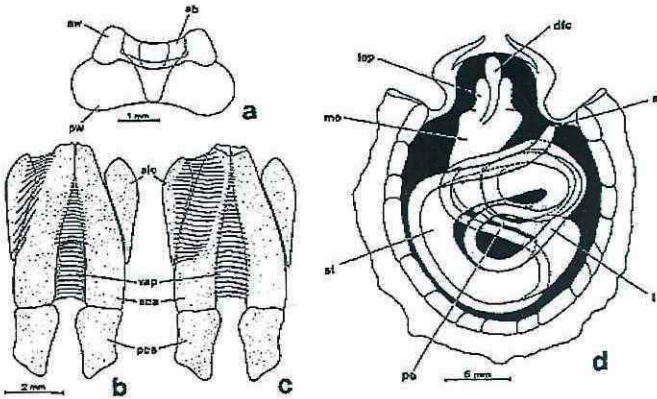

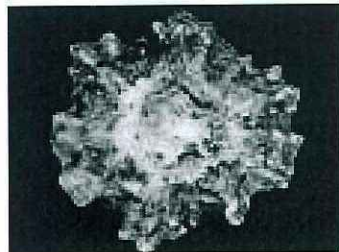

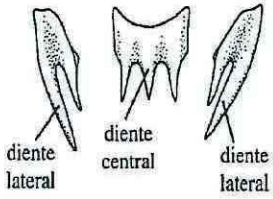

Fig. 2. *Patella (Penepatella) flexuosa*. a, Dorsal view of the jaw. b, Dorsal view of the odontophoral cartilages. c, Ventral view of the odontophoral cartilages. Approximator muscle on the right side is removed. d, Configuration of the alimentary tract.

Patella flexuosa

Traccia lasciata dalla radula della patella sulla roccia.

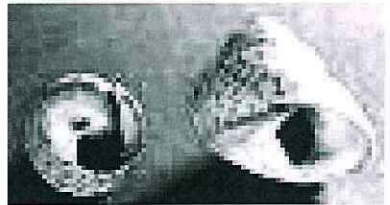

Radula raquiglosa de *Pugilina* (Ryan, 1972)

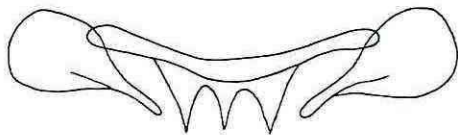

Pugilina morio

Radula di *Monodonta mutabilis*

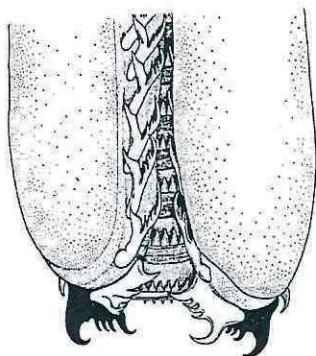

Monodonta mutabilis

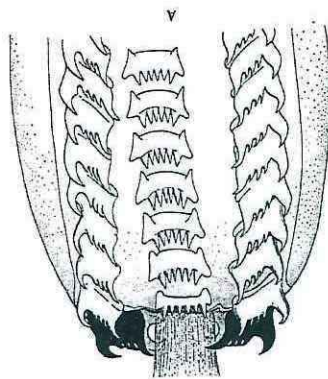

Radula di *Oliva miniacea*

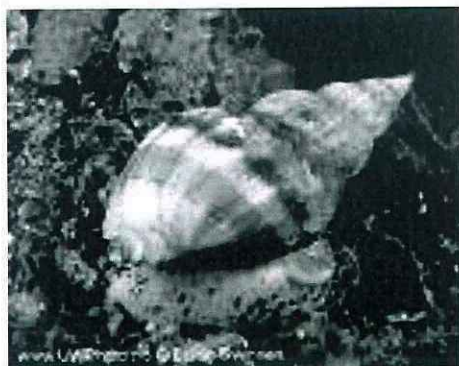

Oliva miniacea

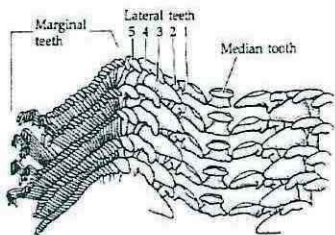

Radula di *Buccinum undatum* (superiore)

(inferiore)

Buccinum undatum

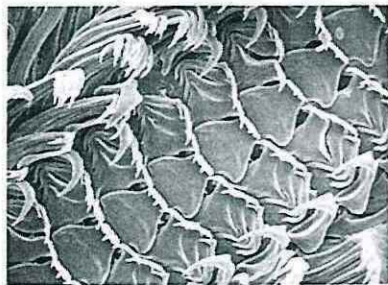

Radula di Haliotis

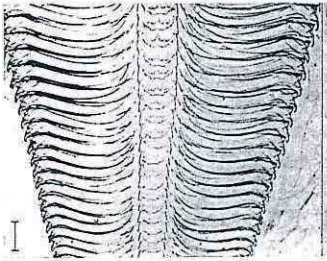

Haliotis

Radula di (Anatoma) Scissurella crispata

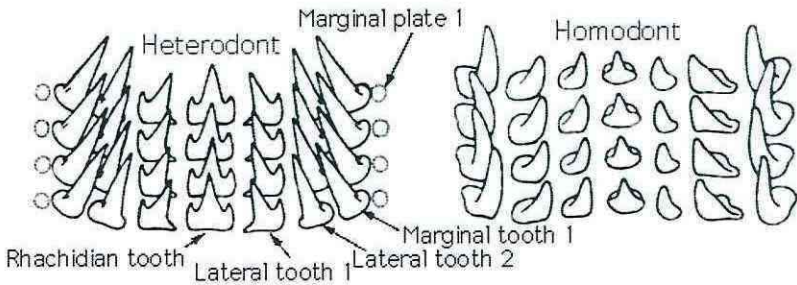

(Anatoma) Scissurella crispata

Radula di *Oxygyrus keraudreni*

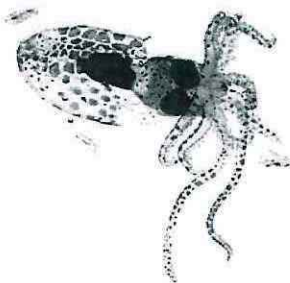

Oxygyrus keraudreni

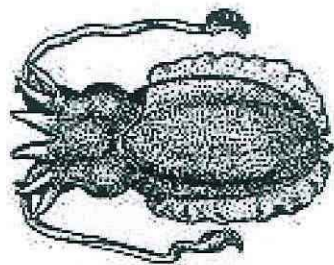

Radula eterodonte di
Thysanoteuthis rhombus

Radula omodont di
Sepia orbignyana

Thysanoteuthis rhombus

Sepia orbignyana

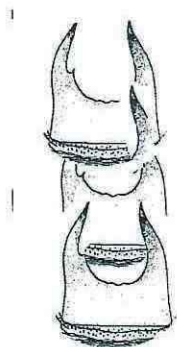

Alcuni denti di radule di solenogastri

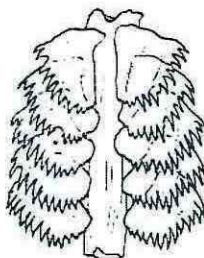

(a) 2 mm

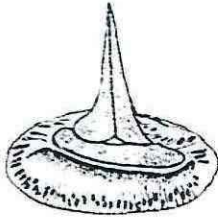

Solenogastri

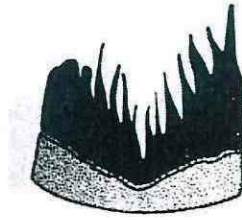

Alexandromenia

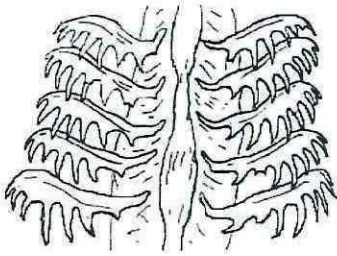

Epimenia ohshimai

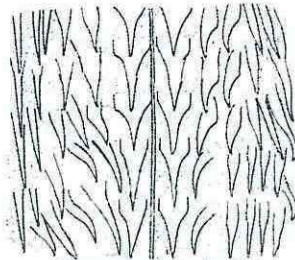

Dondersia californica

Propanameria bivalens

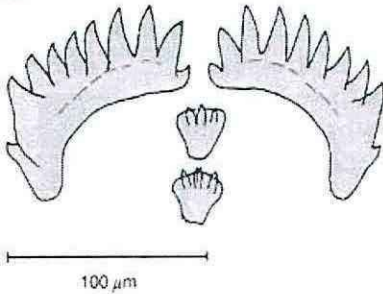

Epimenia verrucosa

Proneomenia weberi
